AKQA as Front End Developer Freelancer
06/2022 - 03/2023
Berlin - Germany

My role within the team involved constructing essential components, enhancing the Design System, and ensuring that the user interface adheres to the anticipated design experience for Jägermeister's new e-commerce platform.

- Design System
- Development Front-end UI components
- Code Review

NMQ Digital as Front End Developer
01/01/2021 - 06/2022
Porto, Portugal

- Design System
- Development Front-end UI components
- Create UI Components
- Code Review

CESAR as Front End Developer
01/11/2018 – 31/12/2020
Recife, Brazil

In my front end role, I ensured visual consistency across systems, developed reusable UI components, and coded them according to best practices and accessibility standards. I facilitated knowledge sharing through workshops and team meetings, created web components and design systems, and collaborated closely with both the UX and Developers teams.

The main activities were:

- Design System
- Development Front-end UI components
- Create UI Components
- Code Review

I am specialized in **UI Development** and **Design Systems**.

My fun time is to figure out how to make a complex animated component work most efficiently.

But also willing to get the work done in

**WELL-
WRITTEN
AND CLEAR
CODE**

Flow Up as UX / UI DESIGNER and Front-end
01/05/2016 – 30/10/2018
Recife, Brazil

As a hands-on UX specialist, I generated exceptional user experiences by assisting the Marketing team in applying UX strategies to boost SaaS sales. I designed interfaces for new features, developed code for site and system interfaces, and collaborated with the backend team to ensure the final product met user expectations. My projects focused on activity, financial, and time management.

Mekatronik as UX / UI DESIGNER and Front-end
01/05/2016 – 01/03/2017
Recife, Brazil

I worked with user research, creating interfaces for augmented reality and online learning environments. These are distance learning, gamification, and industrial automation projects.

WI Informática as Front-end (UI Developer)
01/07/2014–30/04/2015
Sorocaba, Brazil

Responsible for layout design for websites and desktop software. In addition to code interfaces.

Agência PBK as UX / UI DESIGNER and Front-end
01/09/2013–30/06/2014
Sorocaba, Brazil

Responsible for the development and creation of interfaces for web systems.

SM Marketing & Design and **Kenners** as Web Designer
01/01/2012–01/09/2013
Recife, Brazil

Responsible for the development and creation of interfaces. Taking the first steps and learning about digital products.

IN MY FREE TIME,

playing with my little dog lady, learning more about gadgets and new technologies while enjoying good nature and a sustainable way of living.
